

SCOTTY (\$DMAN) Whitepaper

Mission

Scotty (\$DMAN) is a meme-driven crypto asset born from the chaotic genius of Michael Scott from The Office. This coin doesn't just live in the cringe - it thrives in it.

We're here to bring laughs, community, and some actual utility to the world of meme coins.

Token Overview

Name: Scotty

Ticker: DMAN

Supply: 23,041,990,000 tokens

Chain: Binance Smart Chain (BEP-20)

Decimals: 18

Tokenomics

Owner: 10% (2.3B)

Contract Reserve: 90% (for liquidity, burns, rewards)

Taxes:

- Burn Fee: 1% of every transaction is burned
- Holder Rewards: 2% distributed to all holders

Milestone Auto-Burn:

Every 10,000 transactions, the contract auto-burns 1,000,000 DMAN from its own reserve.

Roadmap

Phase 1: Launch

- Smart contract deployment
- Listing on PancakeSwap
- Meme marketing blitz

Phase 2: Growth

- Meme contest & giveaways
- DEXTools, CoinGecko, CMC listings
- Whitepaper + website live

Phase 3: Community Scaling

- NFT integrations
- Staking/airdrops
- Influencer collabs
- Burn parties

Why Scotty?

Because the world doesn't need another serious DeFi coin.

It needs a coin where the roadmap is fueled by:

- Office memes
- Blind confidence
- Community madness

Security

- Fully open-source code
- Optional ownership renouncement
- Uses battle-tested OpenZeppelin contracts
